DECEMBER 2-3, 2026

Southeast Louisiana Clean Fuel Partnership

CLEAN FUELS SUMMIT Virtual Conference 2026

Louisiana cleanfuels

FREE · VIRTUAL · SIX LIVE ZOOM SESSIONS

National Expertise, Local Leadership: Practical Solutions for Transportation & Domestic Fuels

DAY 1 Wednesday, December 2

12:30–1:45 PM CT

Opening Session: Louisiana in Focus

Meet Louisiana's two Clean Cities and Communities coalitions and see how Louisiana fleets are using alternative fuels and advanced vehicles. Then dig into the latest EV registration data and statewide trends, with perspectives from Cleco and Entergy.

2:00–3:15 PM CT

Beyond the EV: Game-Changing Technologies Reshaping Transportation

Explore technologies challenging how we move people and goods: autonomous transit in Louisiana, Slate's affordable, modular electric trucks, and emerging self-powered vehicles, with leaders from SporTran, Beep, Slate and Hollywood Trucks.

3:30–5:00 PM CT

Clean Cities in Action: Innovation, Safety & Real-World Success Stories

Launch Alaska shares Electrified Alaska and its Lithium Battery Maritime Shipping Safety Project, and Utah Clean Cities shows how its First Responder READY initiative prepares first responders for battery safety.

DAY 2 Thursday, December 3

8:30–9:45 AM CT

CNG & RNG Are Having a Moment: Why Fleets Are Taking Another Look

With diesel prices pressuring fleet budgets, CNG and RNG are gaining renewed attention as cost-effective, proven heavy-duty alternatives. Explore natural gas economics, engine advances, fueling infrastructure and RNG's role in cutting emissions, with real-world lessons from the public and private sector.

10:00–11:30 AM CT

Renewable Diesel in Focus: Fleet Experiences, Market Barriers & Opportunities

Renewable diesel cuts emissions with no engine changes, but access varies widely by state. Coalition leaders, industry experts and fleets share successful deployments, the policies shaping availability and ways to expand access in states like Louisiana.

12:00–2:00 PM CT
